

## PREMIUM ALFALFA

---

### **Premium Quality for Animal Nutrition**

*Product Presentation | Worldwide Export Logistics*

# THE PRODUCT, PRODUCT RANGE & APPLICATIONS

---

Our company supplies Premium Dehydrated Alfalfa sourced from carefully selected producers in Spain, Romania, and Ukraine, three origins internationally recognized for producing high-quality forage with excellent nutritional value and consistent export quality.

Alfalfa is one of the world's most valuable forage crops and is widely used in modern livestock nutrition due to its naturally high protein content, excellent digestibility, rich fibre, vitamins, and essential minerals. It is considered one of the most efficient forage products for dairy cattle, beef cattle, sheep, goats, horses, camels, and other livestock.

To meet the different requirements of international customers, we offer two production methods:

- Naturally, Sun-Cured Alfalfa
- Machine-Dehydrated Alfalfa

Both types are carefully processed and inspected to preserve their nutritional value while ensuring excellent storage stability, consistent quality, and superior feeding performance.

## PRODUCT RANGE

We supply:

- Naturally, Sun-Cured Alfalfa
- Machine-Dehydrated Alfalfa
- Compressed Alfalfa Bales
- High-Density Export Bales
- Alfalfa Pellets
- Alfalfa Cubes

*Customized specifications are available upon request.*

## APPLICATIONS

Our premium alfalfa is suitable for:

- Dairy Cattle Feed
- Beef Cattle Feed
- Sheep & Goat Feed
- Camel Feed
- Horse Feed
- Rabbit Feed
- Commercial Feed Manufacturers
- Livestock Farms
- Agricultural Cooperatives
- Animal Feed Distributors

Its excellent nutritional profile contributes to improved animal health, milk production, weight gain, and overall feeding efficiency

# ORIGIN, QUALITY ASSURANCE, PACKING, MOQ & LOGISTICS

---

## Available Origins

- Spain
- Romania
- Ukraine

*The origin is selected according to customer requirements, seasonal availability, and shipment schedules.*

## Quality Assurance

Every shipment is prepared according to international export standards and carefully inspected to ensure:

- High Protein Content
- Excellent Digestibility
- Rich Fibre Content
- Low Moisture
- Clean Appearance
- Low Foreign Matter
- Excellent Palatability
- Long Shelf Life

## Packing Options

- Compressed Export Bales
- High-Density Bales
- Alfalfa Pellets
- Alfalfa Cubes

*Packing specifications may be customized according to customer requirements.*

## Minimum Order Quantity (MOQ)

100 Metric Tons

*Larger contract quantities are available for regular supply programs.*

## Shipment & Logistics

We provide worldwide export logistics with flexible shipment solutions.

Available shipment terms include:

- FOB
- CIF

*Depending on customer requirements and destination.*

Shipments are arranged through reliable international shipping lines to major ports worldwide.

# EXPORT DOCUMENTATION & PAYMENT TERMS

---

## WHY CHOOSE OUR PREMIUM ALFALFA?

---

- Premium European Origins
- Available as Sun-Cured or Machine-Dehydrated
- High Protein Content
- Excellent Digestibility
- Consistent Export Quality
- Reliable Year-Round Supply
- Competitive Market Pricing
- Professional Export Documentation
- Worldwide Delivery
- Long-Term Business Partnership

### **Our Commitment**

We are committed to supplying premium forage products with consistent quality, dependable logistics, competitive pricing, and professional customer service.

Our objective is to build long-term partnerships by delivering reliable products that meet the highest international standards in the global animal nutrition industry.

# TECHNICAL DATA SHEET

ALFALFA DEHYDRATED BALES >18% PROTEIN

## PRODUCT CHARACTERISTICS

| PRODUCT CHARACTERISTIC | DETAILS                               |
|------------------------|---------------------------------------|
| Product                | Dehydrated Alfalfa Bales >18% Protein |
| Custom Code            | 12149090                              |
| Lifecycle              | Perennial (~4 years)                  |
| Height                 | 0.6 – 1 meter                         |
| Growth Season          | Spring - Summer - Autumn              |
| Soil                   | Well-drained, sandy-loam soils        |
| Yield                  | 10,000 – 15,000 kg dry matter/ha      |
| Packaging              | 800 kg bales (2200x1500x800 mm)       |
| Storage                | Closed warehouses (dry conditions)    |

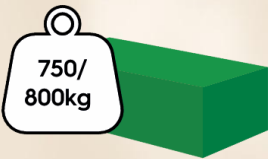

## Usage

Animal feed for cattle, sheep, goats, and camels. Suitable for direct feeding or feed production.

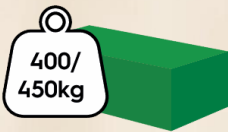

| PARAMETER    | SPECIFICATION |
|--------------|---------------|
| Moisture     | Max 12%       |
| Protein      | Min 18%       |
| Fiber        | Max 28%       |
| Ash          | Max 13%       |
| Aflatoxin B1 | Max 0.02 ppm  |
| E. coli      | Max 10 CFU/g  |
| Salmonella   | Absent in 25g |

## Quality Specifications

Complies with GMP+ feed safety standards. Free from contaminants and foreign materials.

2,10-2,30 x 1,10 x 0,80m.

1,20 x 1,10 x 0,80m.

0,80 x 0,30 x 0,38m.

## Our Logistics and Financial Services

---

- We accept all internationally recognized payment methods, ensuring the rights of all parties (seller, buyer, brokers, etc.) are protected.
- Payment methods are depending on the product, quantities, and delivery destinations from country to country.
- We have extensive experience in shipping, as we handle both small shipments that are shipped in containers and large shipments that are transported by vessels.
